Ahmed Masood

Data Science Internship at BeeNeural.AI
Haripur District, Khyber Pakhtunkhwa, Pakistan

Summary

I am a Data Science student focused on transforming raw data into practical, intelligent solutions using Python, SQL, Machine Learning, Generative AI and Power BI.My work combines data analysis, predictive modelling and AI application development. I have built hands-on projects involving healthcare analytics, hospital readmission risk prediction, missing-data analysis, deepfake image detection and an AI-powered appointment-booking chatbot with function calling.My technical interests include:• Python, Pandas, NumPy and SQL• Machine Learning and predictive modelling• Generative AI, RAG and tool-use systems• Power BI, Tableau and data visualization• Healthcare AI and decision-support solutions• Model evaluation, explainability and reportingI am continuously strengthening my technical and problem-solving skills through practical projects that address real-world challenges. My goal is to develop reliable, responsible and user-focused AI systems that turn complex data into meaningful insights.I am open to Data Science internships, collaborative projects and learning opportunities in AI, Machine Learning and Data Analytics.

Experience

BeeNeural.AI
Data Science Internship
August 2026 - Present (4 months)

Working as a Data Science Intern at BeeNeural, gaining practical experience in data analysis, machine learning, and AI-based application development.
Cleaning, preprocessing, and analyzing structured datasets using Python.
Applying Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn.
Developing and evaluating machine-learning models.
Creating interactive dashboards and data visualizations.
Working with SQL, Power BI, and Generative AI concepts.
Documenting projects and maintaining code through GitHub.
Strengthening problem-solving, teamwork, and technical communication skills.

M Tech Production & Marketing
Data Science Internship
June 2026 - November 2026 (6 months)
Haripur District, Khyber Pakhtunkhwa, Pakistan

Data Science Intern at M Tech Company, working on data analysis, data cleaning, machine learning, and visualization projects. Utilizing Python, SQL, and analytical techniques to extract insights and support data-driven solutions. Collaborating with team members on real-world projects while enhancing analytical, problem-solving, and technical skills.

CodeAlpha
Data science internship
May 2026 - June 2026 (2 months)
Harīpur, Khyber Pakhtunkhwa, Pakistan

Completed a Data Science internship at CodeAlpha, gaining hands-on experience in data preprocessing, exploratory data analysis, machine learning, and predictive modelling.

Developed an Iris Flower Classification model using Python and Scikit-learn.
Built a Sales Prediction model using advertising data.
Cleaned, transformed, and explored datasets using Pandas and NumPy.
Created data visualizations with Matplotlib and Seaborn.
Evaluated models using appropriate performance metrics.
Organized code, documentation, and project results on GitHub.
Improved practical skills in problem-solving, model development, and communicating analytical findings.

Education

Pak-Austria Fachhochschule: Institute of Applied Sciences and Technology
Bachelor of Data science , Data scientist · (October 2025 - December 2029)

Royal Edward school and college haripur
ICS, Computer Science · (June 2023 - June 2024)

Shoukat public school and college Pind muneem
Matric, Biology, General · (June 2022 - June 2023)
